

A new vibrator is a bit like a new partner...

... it's worth getting to know each other first.

## First Things First

To turn it on, click on the button

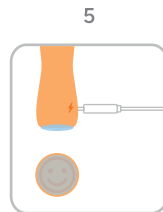

Click again to navigate between the 3 speeds and 1 pulsation mode

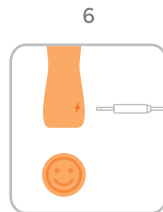

To turn off, press and hold the button. To turn on/off the travel lock, press again for 4s

Light blinking = Low battery

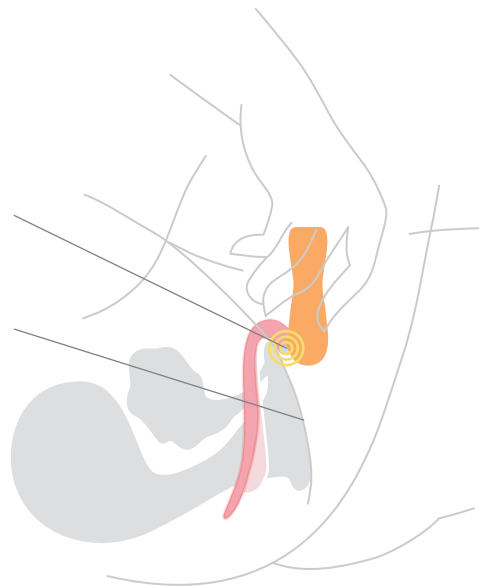

Charging

Fully charged

## Sweet Spots

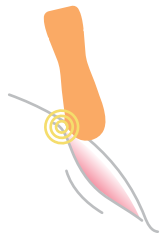

- Clitoral glans
  - Visible part of the clitoris
  - Richly innervated
- Vaginal entrance
  - Highly sensitive

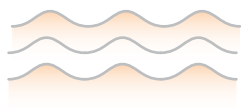

## DISCOVER YOURSELF

Remember that your vibrator is a device, but your body isn't! What brings pleasure varies between vulva owners, and from one day to the next. Keep on exploring yourself, be curious about your sensations and renew the experience every time. Just like you would for good partner sex!

### Pleasure Tips

Apply its rounded head with the little fins on the clitoral glans and play with the 3 speeds + 1 pulsation mode.

Use The Surfer for shallow vaginal penetration to tickle the highly sensitive lower vagina.

If direct contact feels too intense, add a layer of fabric in-between the clitoris and The Surfer.

Introduce The Surfer for partner sex to enhance intercourse or expand outercourse.

### Vibrator Hygiene

Needless to say, your Surfer loves the water. To keep it clean and happy, wash it with water and soap, then pat it dry. We recommend doing this before and after use.
