

A new vibrator is a bit like a new partner...

... it's worth getting to know each other first.

First Things First

To turn it on, click on the button

Click again to navigate between the 4 speeds and 2 pulsation modes

To turn off, press and hold the button. To turn on/off the travel lock, press again for 4s

Light blinking = Low battery

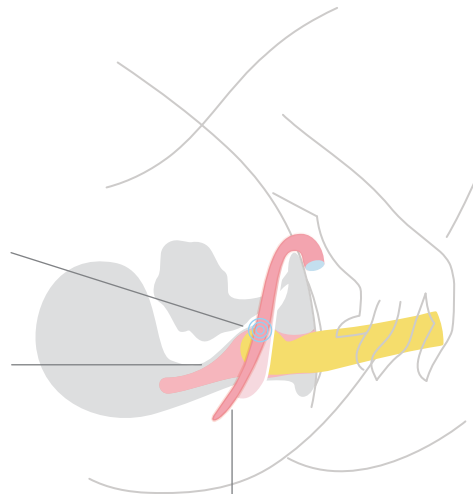

Charging

Fully charged

Court Zones

- Urethral sponge
 - Body of erectile tissue
 - Contains ejaculatory Skene glands
- Vaginal wall
 - In contact with the internal clitoris

- Internal clitoris
 - Becomes engorged during arousal

DISCOVER YOURSELF

Remember that your vibrator is a device, but your body isn't! What brings pleasure varies between vulva owners, and from one day to the next. Keep on exploring yourself, be curious about your sensations and renew the experience every time. Just like you would for good partner sex!

Pleasure Tips

Apply the rounded head on your clitoral glans to stimulate the clitoris directly, which will then get engorged.

When you feel ready, gently insert The Tennis Pro inside the vagina with its rounded head facing the front wall, towards the pubis.

Explore! What is commonly known as the G-spot is not the same for everyone and it may even move over time, so get curious.

Once you've found that sensitive area, massage it softly at first using the rounded head. Then, gradually increase pressure and speed.

Vibrator Hygiene

Your Tennis Pro may be a master at the net, but it can also go for a swim. To keep it clean and happy, wash it with water and soap, then pat it dry. We recommend doing this before and after use.
